

99. The backlog

Things that may or may not be implemented in the future. The list is not prioritized

Todo

- Script for storing consumption data: Enable interval of days, if you want to refresh certain days/periods
- Autopopulate information in sheets
- Handle 503, they may happen
 - [log] 2023-02-11 16:14:57 [EasyLoggerApp] Error occurred for set-cell-delimited-data with {
 'cell-name': 'TibberData-02-2023!M272',
 'delimited-data': '@NoDate|#0.06|=OFFSET(N272;0;-1) * OFFSET(N272;0;-6)'
}
 - [log] 2023-02-11 16:14:57 [EasyLoggerApp] Error: Uuups, statuscode 503 occurred: Error: The service is currently unavailable.
